High School English I STAAR Intervention Teacher - Uvalde High School - 2014  
High School English II STAAR Intervention Teacher - Uvalde High School - 2014

## PREVIOUS EXPERIENCE

I have dedicated my early career to volunteering with disadvantaged students. I am a member of the Manuel "Manny" Castro Luna Scholarship Foundation that awards scholarships to students displaying both academic and sports commitment. I have also been a volunteer at the St. Henry De Osso family project, helping to tutor students in the area of reading and writing. I am a volunteer working with the Dalton Pre-K Head Start program, and with various other organizations helping to spread the likes of health and education to low-income families. Furthermore, I have been working as an adjunct instructor in the areas of English and Speech with Southwest Texas Junior College since the fall semester of 2012. On top of that, I have teaching experience in the grade school area, teaching advanced placement, remedial, and college readiness courses at Uvalde High School.

Besides my previous volunteer experience, I have also been employed by the Uvalde County Attorney's office, helping to purge and edit files, legal documents, and court cases. Though I enjoy the legal writing field, I much rather express my thoughts in much more detail. The legal term can be rather terse.
